February 10, 2006

Ms. Rebecca Davio, Director
Texas Vehicle Titles & Registration Division
Department of Transportation, 4000 Jackson Avenue
Austin, TX 78731

Dear Ms. Rebecca Davio:

Please be advised that Oklahoma began issuing a redesigned certificate of title for vehicles, vessels and outboard motors in January 2006. Enclosed for your review are samples of our different title types. The significant changes reflected in the new design are as follows:

- The size of the title certificate has been increased to 8.5" x 11", with an additional 3" tear off tab (see below)
- The first ownership assignment has been relocated to the bottom front of the certificate. Dealer reassignments, as well as a lienholder information section, remain on the reverse side.
- A 3" tear off tab is now included on every certificate. For vehicle titles, the tab is an (optional) notice of transfer of ownership which may be completed and submitted to our office by the seller. For vessel and outboard motor titles, the tear off tab contains pertinent titling/registration information.

Please note that we will not be reissuing or replacing existing Oklahoma title certificates. The old designs will remain in circulation, until and unless replacement titles are individually applied for and issued. We ask that you continue to honor both old and new certificate of title designs.

We hope you find this information useful. Please direct any questions or concerns to Joe Lunn at (405) 521-3101, or email *jlunn@tax.ok.gov*, or Chuck Dusenbery at (405)521-3538, or email *cdusenbery@tax.ok.gov*.

Sincerely,

Russ Nordstrom, Director
Motor Vehicle Division
