Registration and Title Bulletin # 009-01

TO: ALL COUNTY TAX ASSESSOR-COLLECTORS
SUBJECT: 2001 GREGORIAN & APPLICATION MANAGER (AM) DATES

PURPOSE

To provide you with a table listing all of the Gregorian and Application Manager (AM) dates for 2001. The Gregorian date is part of the transaction identification that prints on receipts and some reports. This information will be helpful when reviewing mainframe reports, which only list transactions by their identification, not their "English" dates. Following is an example:

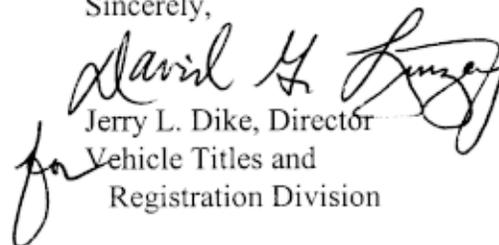

Transaction number: 043328 **36919** 163051

The number in bold and underlined, which will always be the 7th through the 11th digits, would be considered the Gregorian date. On the Gregorian calendar this 5 digit number would be listed under the month and next to the day of the English date. (Example: 36919 is under January and is listed next to 30, hence the English date for this transaction would be January 30, 2001).
