January 30, 2001

REGISTRATION AND TITLE BULLETIN # 012-01

TO: All County Tax Assessor-Collectors

SUBJECT: State of Kansas New Certificate of Title and Title Brands

PURPOSE

To provide information regarding the State of Kansas new certificate of title and title brands.

DETAILS

Effective August 31, 2000, the State of Kansas issued a new certificate of title. Previous versions of the certificate remain valid. The certificate of title has a blue color which fades from left to right from blue to green to blue. The new titles begin with the letter "L" for the title number. Copies of the new certificate of title and a list of security features are attached for your information.

Starting July 1, 2000, the State of Kansas began issuing three new title brands as follows:

Salvage – the vehicle is a hazard to public safety, requiring substantial repairs.

Rebuilt Salvage – the vehicle is restored after it had a salvage brand.

Non-repairable – the vehicle is incapable of safe operation the roadways and has no resale value except as a source of parts or scrap.

COUNTY ACTIONS

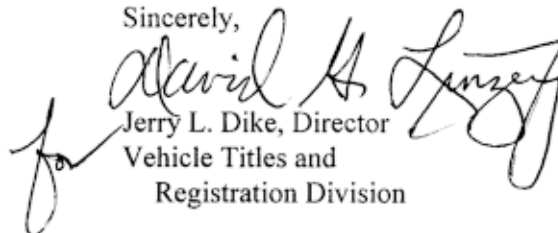

Requirements should a Texas title transaction be supported by:

1. Kansas Titles with a "Salvage brand issued on and after 3-1-96 – DPS Certificate of Inspection and a copy of Form MVT-6 and "Rebuilt Salvage issued by KS".
2. Kansas title with a "Rebuilt Salvage" brand –Select the "Rebuilt Salvage Issued by KS" remark.
3. Kansas Non-repairable title-Not acceptable as evidence of ownership.

CONTACTS

If you have any questions or need additional information, please contact the Kansas Titles and Registrations Bureau at 785/296-3621, or your local TxDOT Vehicle Titles and Registration Regional Office. Thank you.

Sincerely,

Jerry L. Dike, Director
Vehicle Titles and
Registration Division

If application for Kansas title and registration is not made within 30 days of the notary/purchase date, penalty and interest will be assessed.

No Additional Re-Assignments Shall be Attached - Last Assignee Must Title in Their Name

SECURITY FEATURES

- 1) **State Seal** – is blind embossed (raised image).
- 2) **Microprinted Lines** – words “CERTIFICATE OF TITLE” appear as a ruled line and are only clearly visible with magnification (front only).
- 3) **Engraved Border** – a fine line geometric lathe work border produced from engraved art work (front only).
- 4) **Sequential Control Numbers** – printed on the face of each certificate in permanent black to penetrating red security ink. The penetrating red security ink formulates a red halo around the black number. It appears red when viewed from the back.
- 5) **Watermark** – custom 3-dimensional multi-tonal watermark of the Kansas Department of Revenue seal. The watermark is covert when viewed in reflected light or lying on the surface. The watermark becomes overt when viewed in transmitted light. In addition, because of its 3-dimensional qualities, it can easily be “felt” on the reverse side as an additional verification or measure of authenticity.
- 6) **Security Thread** – a micro-printed, fluorescent security thread with an overall overt appearance. The micro-printing is to read “STATE OF KANSAS” and can be viewed with a magnifier only. The fluorescence can be viewed under ultraviolet black light only.
- 7) **Safety Block** – 10% screen of dark blue erasure sensitive ink is printed in the “Odometer Reading” and “Notary Seal” areas (back only).

Paper – to be manufactured with short fluorescent fibers, incorporated into the paper in various densities, randomly placed, visible only under ultraviolet black light.

Dark Blue Erasure Sensitive Fluorescent Background Ink – fluoresces under ultraviolet black light and reacts to any attempt to erase in such a manner as to be immediately detectable (front and back).

Copy Void Pantograph – the word “VOID” appears when the document is copied front and back to serve as protection against copying, both color and black and white.
