INSTRUCTIONS

PERSONALIZED LICENSE PLATE SELECTIONS –

- A selection may not consist of more than six letters and/or numbers.
- A selection that conflicts with the regular license plate numbering system cannot be approved.
- A selection which is already issued will not be approved.
- Each square of the selection block may be used to represent one character, symbol, or space.
- Selections should be shown exactly as you wish them to appear on the license plate.
- In addition to spaces, the only symbols which may be used are periods, dashes, and a small silhouette of Texas. Only one silhouette can be used in a selection. Use an asterisk (*) to represent a silhouette of Texas.
- Small letters, apostrophes, signs, symbols, etc., except as stated above cannot be used.
- Selections with six characters are limited to two symbols or spaces.

NOTE: Due to the size of motorcycle and moped license plates, selections for personalized license plates are limited to six characters and one space. If the selection contains six characters, than a silhouette, period, or dash cannot appear on the plate. They may appear on plates with fewer than six characters.

Disabled Person PLPs cannot use spaces, dashes, or silhouettes of Texas because of the international symbol of access. The symbol of access is located on the left side of the plate.

If approved, the special license plates will be manufactured and mailed to your County Tax Assessor-Collector and you will be notified accordingly.

The regular registration fee must be paid for the period for which the special license plates are valid. If your vehicle is currently registered when the license plates are issued, your vehicle registration expiration date may need to be adjusted to correspond with the expiration of the special license plates. *If necessary, additional fees will be collected or credit will be issued to make this adjustment.*

NOTE: An approved selection may be revoked at any time, if the selection appears to be objectionable.

A license number that has already been issued or is deemed to be offensive or inappropriate will not be approved.

<p align="center">DISABLED PERSONS</p> <div style="display: flex; align-items: center;"> <div> <p>Parking permits for disabled persons are available at local county tax offices. State law requires any vehicle parked in a space reserved for the disabled to display either special Disabled Person License Plates bearing the international symbol of access or the plastic placard designed to hang from the rearview mirror.</p> <p>Placards are available for persons with permanent and temporary disabilities at a cost of \$5 each. Applicants may request one set of Disabled Person License Plates and one placard; or two placards. Certain qualified applicants may obtain additional sets of Disabled Person License Plates for vehicles which are equipped with special equipment designed to allow a person who has lost the use of one or both legs to operate the vehicle. For initial applications, the application form (VTR-214) must be signed by a physician licensed by the Texas State Board of Medical Examiners, a physician practicing medicine in the U.S. military on a military installation in Texas, or a physician practicing medicine in a Veteran's Administration medical facility in Texas (the physician's signature must be notarized); or, a written original prescription on a prescription form or on the physician's letterhead may be accepted in lieu of the notarized physician's signature. Applications for disabled person license plates and/or placards may be obtained at your local county tax office.</p> </div> </div>	<p align="center">VEHICLE EMISSIONS TESTING IN TEXAS</p> <div style="display: flex; align-items: center;"> <div> <p>The "Texas Motorist's Choice Program" is Texas' vehicle emissions testing program. It began July 1, 1996, in Dallas and Tarrant counties and January 1, 1997, in Harris and El Paso counties. Motorists with gasoline-powered vehicles, 2 through 24 years old, registered or inspected in these counties, have appreciated the convenience of choosing from more than 2,000 state inspection stations to get their vehicle's safety inspection and emissions test in one step!</p> <p>Most well-maintained vehicles pass the emissions test. However, if your vehicle fails the test, be sure to pick up the "Has your vehicle failed the Emissions Test?" and "Recognized Emissions Repair Facilities of Texas" brochures at any certified emissions inspection station or your local Texas Department of Public Safety (DPS) office. You may qualify for a waiver or time extension.</p> <p>The overall design of the "Texas Motorist's Choice Program" is to provide cleaner air for the citizens of the State of Texas. In addition, properly-maintained vehicles usually result in better fuel economy and need fewer repairs. With the "Texas Motorist's Choice Program," we will all breathe a little easier!</p> <p>For more information about vehicle inspection and emissions testing, contact your local Texas Department of Public Safety (DPS) office.</p> </div> </div>

Clean the area with soap and water to remove any residue. A household glass cleaner may be necessary to remove the residue. Use caution to ensure that the cleaner does not damage the safety inspection sticker. Make sure the area is clean and dry. Peel the protective covering from the face of the sticker until approximately 1/2 inch of the sticker is exposed. Place the sticker on the inside of the front windshield <u>within six inches</u> of the safety inspection sticker. Peel off the remaining protective covering and press the sticker firmly to the windshield. <p align="center">PROOF OF INSURANCE</p> <p>State law requires <u>valid</u> proof of financial responsibility at the time of motor vehicle registration. CONSTRUCTION MACHINERY Explanation and Pictures

Machinery License plates are issued for construction machinery. To qualify for the \$5.30 Machinery License Plate, a vehicle must be of an unconventional type, which is built from the group up as a machinery; and it must be designed and fabricated to perform some type of job related to construction. Furthermore, the vehicle must not be designed to transport persons or property on the public highways.

When displaying a current Machinery License Plate, the owner or operator of a machinery vehicle is privileged to operate the vehicle temporarily upon the public highways with the payment of the regular registration fees prescribed by law. However, while operating on the highways, a machinery licensed vehicle is not permitted to carry any type of load or to tow another vehicle. If the owner or operator of a machinery licensed vehicle should violate the use of the play by carrying a load or towing another vehicle, the vehicle shall be deemed to be operated or moved unregistered; and such owner or operator shall be subject to a fine not exceeding \$200.00 and shall be required to unload the vehicle before further operation shall be permitted under the Machinery License Plate.

If a machinery vehicle is apprehended while operating unregistered upon the public highways, the owner or operator shall be required to purchase a \$5.30 Machinery License Plate and pay a penalty equal to 20% of the prescribed license fee. Also the owner or operator shall be subject to a fine not exceeding \$200.00 for operating an unregistered vehicle.

In the event an oversize overweight machinery vehicle displaying a current Machinery License Plate is apprehended for operating without an oversize or overweight permit or is apprehended for operating in violation of the provisions of an oversize or overweight permit, the owner or operator shall be subject to a fine or operating oversize or overweight, as the case may be. In addition, the owner or operator will be required to secure a new permit which covers the actual size or weight of the vehicle. (Note: The statutory size limitations do not apply to highway building and maintenance machinery when temporarily propelling or moved upon the public highways.)

The following are examples of unconventional vehicles which qualify for the \$5.30 Machinery License Plate:

VEHICLE IDENTIFICATION NUMBER	YEAR	MAKE	BODY STYLE
WIDTH	LENGTH (not including hitch)		PARK MODEL <div style="text-align: right;"><input type="checkbox"/> YES <input type="checkbox"/> NO</div>

For Motor Vehicle title and registration purposes, the term "Travel Trailer" refers to recreational trailers which are:

- Designed primarily NOT for use as a permanent dwelling, but as temporary living quarters for recreational, camping, travel, or seasonal use,
- Built on a single chassis, and
- Are permanently towable by a light duty truck.

"TRAVEL TRAILERS" MUST MEET ONE OF THE FOLLOWING CRITERIA, IN ADDITION TO THE CONDITIONS STATED ABOVE:

House Trailer-type vehicles and Camper Trailers must be less than eight (8) body feet in width, AND less than forty (40) body feet in length (not including the hitch). OR

Park Model-type Trailers must be 400 square feet or less when measured at the largest horizontal projection, and may exceed the above mentioned width and length limitations. (See reverse side for permit requirements.)

See reverse side for more information.

NOTE: MANUFACTURED HOMES WHICH ARE DESIGNED AS A PERMANENT DWELLING MAY NOT BE TITLED AND REGISTERED AS A TRAVEL TRAILER.

☐ I hereby certify that I am the owner of the above described travel trailer/park model trailer, and that said travel trailer/park model trailer meets the criteria stated above.

OR

CERTIFICATION OF IDENTIFICATION NUMBER OF TRAVEL TRAILER/PARK MODEL TRAILER LAST REGISTERED AND TITLED OUT OF STATE:

PERMIT REQUIRED TO MOVE

If a travel trailer is a "Park Model" type trailer, and exceeds 8'6" in width or 45' in length, the owner will be required to obtain an oversize/overweight permit, in addition to regular registration, to legally move the trailer on the public highways.

To obtain an oversize/overweight permit, contact the Motor Carrier Division at 1-800-299-1700.

**TRAVEL TRAILER/PARK MODEL TRAILER LAST TITLED AND
REGISTERED OUT-OF-STATE:**

A Travel Trailer or Park Model Trailer last titled and registered out-of-state is required to pass a Texas Safety Inspection if the gross weight of the travel trailer exceeds 4,500 lbs., before it may be titled or registered in Texas.

If the travel trailer or park model trailer is used as a residence, and is being registered for the sole purpose of obtaining a certificate of title and not for operation on the highways, it would not be subject to the safety inspection requirements. However, to ensure that safety inspection is not required, the applicant will be required to certify that the vehicle will not be operated on the highways of this State. Applicants will also be required to physically inspect the vehicle to verify the correct vehicle identification number. These requirements may be accomplished by checking the second box on the lower portion of the front of this form.
