County Funds Remittance

Accounting:

- A telephone call initiating the Electronic Funds Transfer (EFT) to transfer money is no longer necessary. After completing the County Funds Remittance Event, the EFT request is automatically remitted to the Comptroller of Public Accounts for submission to a Funds Clearinghouse.
- A Unique Trace Number is Assigned to Each Remittance Transaction, appearing at the top left corner of the Funds Remittance Verification Report [RTS.POS.2311].
- Transactions may be voided until 6:00 p.m. on the day the remittance is submitted. Due to "real-time" updates, results of EFT entries and voids can be seen immediately.

Multi-Year Registration

RTS will now allow Multi-Year Registration (**24 or 36 months**) for certain registration classes that meet the following criteria:

- vehicle model year is **current or previous year** and the vehicle has **never been registered in the state of Texas or any other state.**
- **A Manufacturer's Certificate of Origin (MCO)** will be required as the surrendered evidence.
- Fees will be computed as one-twelfth of the current annual registration fee multiplied by the number of months (minimum 12 months).

In the designated registration period. Local fees (reflectorization, automation, child safety, county road and bridge) will be collected for each 12-month registration period purchased.

Note: If MCO is not selected on the Ownership Evidence Surrendered [TTL011] Screen, the system will only allow a **maximum of 23 months.**

EXHIBIT "A" to Amendment One
State of Texas, County of _____

1. If a County desires additional RTS information resources, e.g. workstations or peripheral equipment, beyond that which is allocated by the State, the equipment and support may be leased at County expense from the State. Counties should contact their supporting Vehicle Titles and Registration Division Regional Office for information and the necessary form to amend their existing Agreement for the Use of State of Texas Automation Equipment, that is, their "County Agreement".
2. Submitting a signed amendment form to the supporting VTR regional office will constitute the County's formal request to lease RTS workstations and will signify that the County Tax Assessor-Collector has the funds necessary to lease this equipment.
3. The cost of leasing a basic RTS workstation will be \$1,500 per year, except if the installation is at a new site that is a site where RTS has not previously been installed. In this case, a "one time" additional fee of \$2,500 for the first workstation will be charged. The cost of leasing other RTS information resources and support is reflected below. Counties will identify the type and amount of the equipment desired by appropriately annotating this quantity below.
4. During the first year of installation, the county will be billed during the month immediately following the month in which the equipment is installed for the pro-rated portion of the State fiscal year that remains. Thereafter, billing will occur annually during the first month of the State's fiscal year (September).
5. The county may request the State remove the equipment at any time and it will be removed within 30 days of the request being received by TxDOT. The county will forfeit any portion of the annual lease fee that remains.
6. Equipment leased by a county will remain in the county unless replaced by the State or until the County requests that it be removed.
7. Annual costs for the above equipment and services are subject to change annually. Counties will be notified at least 90 days in advance of proposed changes.
8. Counties will annotate below (by site and quantity) equipment requirements. Total annual costs can be projected using the table provided. TxDOT will compute final costs and the county will be billed in accordance with paragraph 4 above.

	Item Type	County Site	Quantity	Individual Item Cost	Total Annual Cost

STATE OF TEXAS

COUNTY OF _____

AMENDMENT ONE [LEASE OF STATE OF TEXAS REGISTRATION AND TITLE SYSTEM (RTS) INFORMATION RESOURCES AND SUPPORT] TO AGREEMENT FOR THE USE OF STATE OF TEXAS AUTOMATION EQUIPMENT

THIS AMENDMENT is made between the "State" and the "County" pursuant to the addition of SECTION 1, Subchapter A, Chapter 520, Section 520.002 of the Texas Transportation Code as enacted by the 76th Legislature of the State of Texas for the purposes of providing the County of _____, Texas an option to lease additional RTS workstations/items directly from the State. This amendment incorporates all the terms and provisions regarding responsibility for: equipment installation, RTS programming and hardware/software configuration, security, maintenance, equipment repair and replacement, equipment movement, unauthorized equipment use, building electrical requirements, accountability/inventory of equipment, training, and supplies provided in the Agreement for the Use of State of Texas Automation Equipment dated _____.

In addition to the provisions of the original county agreement, TxDOT's responsibility for equipment installed at non-county tax assessor-collector sites; e.g. privately owned, for profit enterprises performing registration and title functions for the county tax office; will be limited to ensuring the equipment remains operational. The county will be responsible for all training, user support, forms, supplies, user policy and procedures, etc., associated with this leased equipment. This amendment will remain in force for as long as the Agreement for the Use of State of Texas Automation Equipment remains effective.

This Amendment provides a new option for the County to obtain additional RTS Information Resources and Support not identified in the Agreement for Use of State Automation Equipment. The process for requesting these resources and annual cost and billing information associated with this lease are included in Exhibit A to this Amendment.

RTS workstations identified below and/peripheral equipment identified on Exhibit A which are leased under the provisions of this Amendment will be installed following approval of the County Commissioner's Court. This amendment will be signed below by the County Judge or will be supported by a certified copy of the Commissioner's Court Order or Resolution which will be attached, and the Director of the Vehicle Titles and Registration Division of the Texas Department of Transportation.

The County of _____, Texas will lease _____ additional RTS workstation(s)/items and requests that it/they be installed at the following County Tax Office managed or controlled site(s):

- May require minimal corrections to receipt
- More information coming soon

TITLE ONLY FOR APPORTIONED VEHICLES

- Pilot program implemented October 1, 2000
- No change in county processing
- Processed within 5 working days of receipt
- RPO transactions are rejected, if apportioned registration has not been purchased

TITLE ONLY FOR APPORTIONED VEHICLES

- Evaluated pilot program in January 2001
- Results
 - (1) quicker title issuance and
 - (2) less rejections for counties to handle
- Approximately 18,000 transactions received
- Processed approximately 11,000 transactions as Title Only

LOST TITLE REPORT AND TRANSACTION PROCEDURE

- Effective January 2001
- Reduces or eliminates additional documentation from counties
- Title Control Systems Branch generates:
 - (1) Lost Title Package Reports and
 - (2) Title and registration verifications

LOST TITLE REPORT AND TRANSACTION PROCEDURE

- If applicable, counties are required to provide:
 - (1) A new check for original remittance
 - (2) Duplicate bonds with original signatures and powers of attorney for bonded title transactions
 - (3) A copy of the Form 31-RTS

FRIENDLY REMINDERS
