DATE: October 2000

SUBJECT: Revised Ohio Certificate of Title for Motor Vehicles and Watercraft

Enclosed is a sample of the revised Ohio Certificate of Title.

Ohio's revised title conforms to the AAMVA's recommended title size and formats, and incorporates AAMVA recommended security features. Some changes made on the revised Ohio title include the following:

The title has been printed on watermark paper. There is a high-resolution border. A two color iridescent, repetitiously designed pantograph printed in erasure-sensitive inks. The pantograph design and process compatible inks will consist of multi-directional images virtually invisible to the naked eye and providing the latest technology in copy-void deterrence to reproduction on color copiers resulting in the appearance of the word "VOID" in multiple areas of the pantograph.

The Great Seal of the State of Ohio shall be registered within a circular cutout in both the face and back pantographs.

A control number is printed in an ink that prints black on the face of the title and penetrates through the title, appearing slightly red when viewed from the back of the title.

A ten character bar code is printed on the lower left-hand corner of the face of the title and matches the control number. The bar code number and the control number are not the title number. The title number appears in the upper right hand corner of the document and is printed when the title is issued.

All previously issued Ohio titles will still be valid.

If you would like additional information about the revised Ohio Certificate of Title, please contact the Ohio Bureau of Motor Vehicles, Title Division, P.O. Box 16520, Columbus, OH 43266-0020, 614-752-7671.

Sincerely,

LT. GOVERNOR MAUREEN O'CONNOR
DIRECTOR, OHIO DEPARTMENT OF PUBLIC SAFETY
