TO: All Motor Vehicles Administrators

SUBJECT: New York State Wholesale Certificate of Sale (MV-50W)

The latest issuance of the Department of Motor Vehicles' Wholesale Certificate of Sale, form MV-50W, contains a misprint. The affected forms have a print date of 10/03, and fall within the range of serial numbers beginning with W00507601 and ending with W00607600. The misprint occurs on all four parts of the form, in the lower right corner, in the last box to the right of the Purchaser's signature line. The box bears the title "Seller's Facility No." (see Sample printed on the back of this memo). It should read "Purchaser's Facility No."

As an exception to policy, we are allowing New York wholesale dealers to use the misprinted forms, and to cross out the word "Seller's" and write the word "Purchaser's" in ink above it. Therefore, any MV-50W (10/03) with a serial number between W00507601 and W00607600 is considered valid if it is properly filled out and signed, and shows no alterations other than this authorized ink change.

Please share this information with appropriate staff. Thank you.
