Inventory Pattern Consolidation

The final staging for inventory pattern consolidation is included in this version. Previously, certain inventory items (plates) could not be processed through RTS due to incompatibilities between the plate pattern issued by the Special Plates Branch and the pattern accepted by the system. This has been resolved by ensuring that the plate number taken from inventory is next in a sequence of a large range of numbers. Consolidated plate patterns using the same sequence of numbers are as follows.

Inventory Item Code Description	Inventory Item Sequence Numbers
Classic Auto	BB01BB – ZZ99ZZ
Classic Truck	BB01BB – ZZ99ZZ
Collegiate	BB01BB – ZZ99ZZ
Desert Storm	BB01BB – ZZ99ZZ
Houston Livestock Show & Rodeo	BB01BB – ZZ99ZZ
Korea Veteran	BB01BB – ZZ99ZZ
Professional Firefighter (NPO)	BB01BB – ZZ99ZZ
US Marine Corp	BB01BB – ZZ99ZZ
Vietnam Veteran	BB01BB – ZZ99ZZ
WWII Veteran	BB01BB – ZZ99ZZ

For Non-Publishing Counties Only

Non-Publishing County Security Administrators who are adding existing employees to the security in other offices will no longer access the Active Directory duplicating the unique user name by adding a "1". Check the **Enable User Name for Search** checkbox and enter the existing User Name for the employee at each office.
