Fee: 50% of the regular truck, truck-tractor or trailer fee.

### Qualifications:

- Used on a highway exclusively to transport the owner's soil conservation machinery or equipment used in clearing real property, terracing, or building farm ponds, levees, or ditches.

### Guidelines:

- An owner applying for this type of registration must sign the affidavit on the form.
- Owner may register only one truck, truck-tractor, and one semi-trailer or low-boy trailer.
- Only one plate issued for display on the front of the vehicle.

### Renewals:

- Notice sent 60 days prior to expiration.
- The department will retain a specialty license plate number for 60 days after the expiration date of the plates if the plates are not renewed on or before their expiration date.
- All specialty license plate renewals received after the expiration of the 60 days will be treated as new applications; previous owner must reapply.
- Renew at the tax office only – new plates are issued each year.
- Customer decides not to renew the county will issue a general issue plate at no charge and collect full registration fees.

### Transfers:

- Transferable from person to another qualifying person, but are not transferable from one vehicle to another.

### Replacements:

- Fee: \$5.30/\$6.30 (large county – 50,000 + vehicle population counties)
- Counties should have plates in stock, if not contact the regional office.
