Document Guide

The Registration and Title Systems (RTS) Release Notes have the following purposes:

- Prepare RTS users for upcoming system changes.
- Provide a short-term reference tool for the period after a release when changes are still new to users.
- Serve as a historical reference regarding the technical changes made to Texas Department of Motor Vehicles (TxDMV) applications.

In each section of this document, you will find an overview of the RTS change and, in most cases, screen shots to help familiarize you with the new features and/or changes. The following icons highlight sub-sections of the release notes that might be of particular interest to RTS users.

RTS Change – New RTS feature, correction or modification included in the release.

How To – Provides basic steps for using the RTS change Item.

Note – Provides a brief comment or a special mention of important facts or points.

Resource Link – Provides links to additional resources relevant to this change.

TAC Office Considerations – This section includes important points to consider when determining how to implement the new RTS change, reminders and useful tips.

Release at A Glance

This document describes new features, enhancements and defect corrections to the Registration and Title System (RTS) 7.1.0, Internet Vehicle Title and Registration Service (IVTRS) 4.4.0. The visible changes in this release of known enhancements include:

- ◆ Title Requirements for Data Purification
- ◆ RTS VIN Decoding Program
- ◆ Vehicle Color
- ◆ Modify Placard Event
- ◆ Non-Resident Agricultural Permits (NAP)
- ◆ Record Not Applicable in Timed Permit Event
- ◆ Reports
- ◆ Various Admin Table Updates
- ◆ County Fixes and Activity Changes
- ◆ Internet Vehicle Registration System (IVTRS)
- ◆ Reminder

The 7.1.0 statewide release date is February 25, 2013.

Title Requirements for Data Purification

Overview

When transferring a title, the option to select “No VIN” will result in an error message advising the user a VIN must be entered if a record is found. This enhancement is being added as part of the TxDMV Data Purification Project, which is intended to clean up existing motor vehicle data and help prevent the wrong motor vehicle record from being transferred.

The screenshot shows the 'RTS: Title Application' window with a menu bar (Customer, Miscellaneous, Reports, Local Options, Accounting, Inventory, Funds, Exit, Help). A dialog box titled 'VIN Key Selection KEY006' is open. It contains the following fields and options:

- VIN: [Text Field]
- Applicant Owner Id: [Text Field]
- Last 4 digits of Document No: [Text Field]
- ☐ No VIN (highlighted with a red arrow)
- ☐ Same Vehicle
- Buttons: Enter, Cancel, Help

At the bottom of the main window, the following information is displayed:

- RTS Version 7.1.0
- 01/23/2013
- Data Server [Green Dot]
- Record Retrieval [Green Dot]
- Current Internet Renewal Count: 0
- MCLENNAN COUNTY, MCGREGOR SUBSTATION, CODE/BATCH SERVER, R3512102

If the user selects “No VIN” (or Alt V) at the VIN Key Selection KEY006 screen, the user will be prompted to search by license plate number. If RTS locates a vehicle record containing a VIN the following error message will display.

The screenshot shows an error message dialog box titled 'RTS000055'. It contains a red hand icon and the following text:

TITLE SEARCH BY VIN MUST BE USED WHEN
VEHICLE HAS ASSIGNED VIN.

Buttons: OK, Help

The user can select “OK” then they will be taken back to the VIN Key Selection KEY006 Screen. The user will need to enter the VIN to access the record.

RTS VIN Decoding Program

Overview

Manufacturers that recycle portions of the VIN on new year model vehicles have created issues with the RTS VIN decoding program. The 10th digit maybe recognized by the VIN decoding program as a prior year model triggering RTS to pre-populate the wrong year.

In an effort to reduce the amount of vehicle information in error, RTS will no longer populate the year model when the returned year is 28 or more years in the past (**for example: 2014 - 28 = 1986**). In this example, the user will be required to manually enter the year model information.

The screenshot shows a software window titled "No Title Record TTL004". The form contains the following fields and controls:

- Vehicle Class: PASS
- Registration Class: PASSENGER-LESS/EQL 6000
- New Title Type: ORIGINAL
- Year/Make: [Text Box] [Dropdown Menu] (A red arrow points to this field)
- Empty Weight: [Text Box]
- Body Style: [Dropdown Menu]
- Carrying Capacity: [Text Box]
- Model: [Text Box]
- Gross Weight: [Text Box]
- Major Color: [Dropdown Menu]
- Tonnage: [Text Box]
- Minor Color: [Dropdown Menu]
- ☐ Fixed Weight
- ☐ Travel Trailer
- ☐ Park Model Trailer
- VIN: [Text Box]
- Body VIN: [Text Box]
- Travel Tir Length: [Text Box]
- Odometer Reading: [Text Box] [SPV Button]
- Travel Tir Width: [Text Box] Ft [Text Box] Inches
- Trailer Type: [Dropdown Menu]
- Brand: ACTUAL MILEAGE [Dropdown Menu]
- Replica Year/Make: [Text Box] [Text Box]
- Buttons: Enter, Cancel, Help

Vehicle Color

Overview

Previously, vehicle color could only be added in certain RTS Registration Events and if a color change was requested, the change had to be made in a separate event. The vehicle color can now be added or changed (if color is already present) in the following Registration Events:

- ◆ Renewal
- ◆ Duplicate Receipt
- ◆ Exchange
- ◆ Replacement
- ◆ Address Change

Also, with this release, hot keys have been added to the Registration Events for vehicle color. The hot key for Major Color is **“Ctrl M”** and the hot key for Minor Color is **“Ctrl N”**.

Example of a screen with hot keys available for vehicle color.

The screenshot displays the 'Registration REG003' form. The 'Vehicle' section contains the following information:

- 2001 DODG PK
- 3B7KC2366YG145160
- Major Color: MAROON (highlighted with a red circle and a green arrow pointing to it)
- Minor Color: SILVER (highlighted with a red circle and a green arrow pointing to it)
- Body VIN:
- Class: TRK<=1
- Odometer: EXEMPT Tons: 0.75
- Trlr Type: Length:

The 'Owner' section shows:

- Owner: Id: ZACH FITZHUGH

The 'Document' section shows:

- Document No: 16100341035142203
- Issued: 07/17/2012
- REGULAR TITLE

The 'Weight' section shows:

- Empty: 6100
- Capacity: 1500
- Gross: 7600

Buttons at the bottom include: Enter, Cancel, Help, Lien(s), Owner Address, Additional Information, and Special Plate Information.

Modify Placard Event

Overview

Counties will now be able to correct errors on existing placards through a new Placard Modify Event. This will allow the user to modify errors in the following fields:

- ◆ Applicant ID
- ◆ Applicant ID Type
- ◆ Name of Disabled Person or Institution

Modification can only occur on active placards. A receipt will be generated when any of the above three fields are modified. If the situation requires issuance of a new placard, the user will be able to complete the transaction without deleting the previous placard. This will keep the same expiration as the previous placard. The placard database updates in real time making the modified information viewable in the Placard Inquiry.

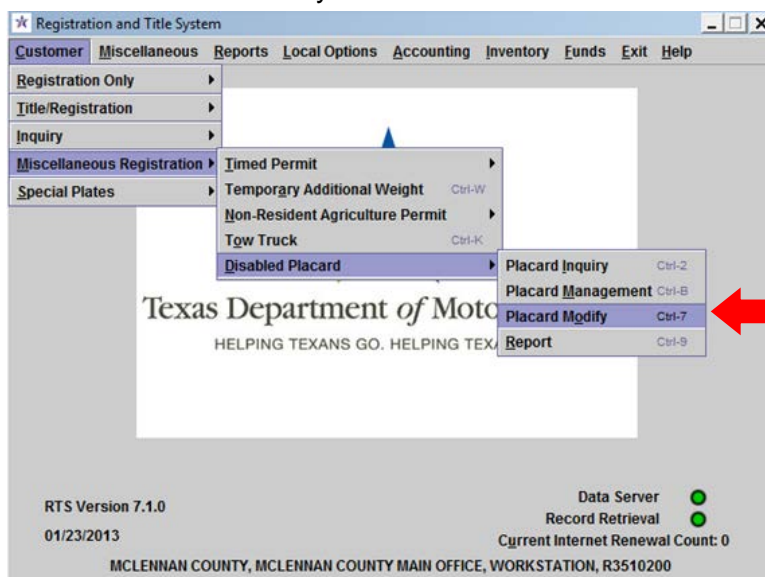

An example of when a new placard is issued would be a name change due to marriage or divorce.

How to Modify a Placard.

Security Access Rights for Placard Modify and Report will need to be granted under Local Options.

1. Click on Customer.
2. Select Miscellaneous Registration.
3. Select Disabled Placard.
4. Select Placard Modify.

5. Select and input the search criteria.
6. Click on Enter

Non-Resident Agricultural Permits (NAP)

Overview

Currently, two types of Non-Resident Agricultural Permits (Texas Product and Out of State Products) are issued via RTS. Both types of permits have a unique permit number pattern. RTS issues a receipt for each permit type and a pre-printed permit is manually completed by the county for issuance.

With this release, we are eliminating the use of the existing pre-printed permits and RTS will now assign a system generated permit number that is reflected in the "Permit No." field on the Non-Resident Agricultural Permit receipt. These permits will now be available for Law Enforcement to query similar to other permits issued by the counties.

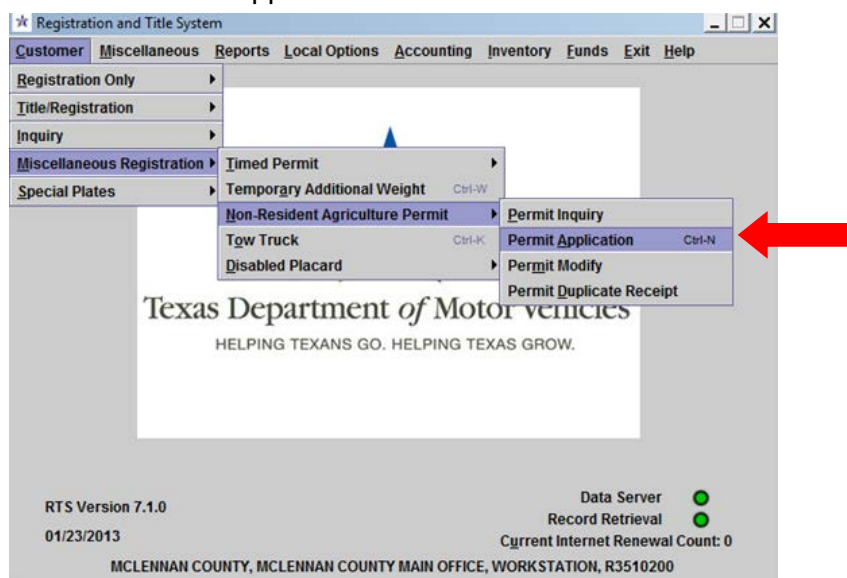

Non-Texas residents are able to purchase up to three Non-Resident Agricultural permits per year per vehicle. The time period begins on the first permit receipt's effective date. If three permit receipts have been issued, a message will pop up (similar to the 30-day permit) that multiple permits have been issued.

The Non-Resident Agricultural permit receipt should be carried in the vehicle, as no physical permit will be issued.

How to Access the Non-Resident Agriculture Permit Event.

1. Click on Customer.
2. Select Miscellaneous Registration.
3. Select Non-Resident Agriculture Permit.
4. Select Permit Application.

When processing a NAP a VIN is required.

Record Not Applicable in Timed Permit Event

Overview

The Record Not Applicable checkbox has been removed from the Timed Permits Event (INQ004 Screen). In the event of a STOP (remark on the record that prevents processing), the county will have to contact the regional service center for an Authorization Code to continue with the permit issuance. A screen enhancement in this event now provides the user the ability to view the entire Document Number without having to scroll to the right.

Old INQ004 Screen

Record Not Applicable has been removed.

New INQ004 Screen

No scrolling required on the INQ004 screen, the entire Document Number is visible.

When processing a Timed Permit, if a STOP should occur, an Authorization Code is required.

The county would need to contact their TxDMV Regional Service Center for an Authorization Code.

Reports

Overview

The counties will be receiving two new reports on the 7th working day of each month (unless the 7th day is a Monday). The Reports are **4992 Multi-Yr 24 Month Detail Registration Report** and **4995 Multi-Yr 36 Month Detail Registration Report**. These reports will be sent as downloaded reports. Like all other downloaded reports, the last seven report dates will be held under the Reprint Report Event.

Various Admin Table Updates

- ◆ Official Plates are now available for trucks that are greater than one ton.
- ◆ Two new Makes have been added to the Vehicle Makes Table. The two new makes are “**Fisker**” and “**Ram**”.
- ◆ ACH is a new payment type that has been added to the drop down box on the Payment Type Table. When processing an ACH payment, click in the drop down box to select ACH.
- ◆ A check number can now be entered for any of the check type payment types on the Payment Type PMT001 frame. These payment types include:
 - ◆ Check
 - ◆ Traveler’s Check
 - ◆ Cashier’s Check
 - ◆ Money Order

Up to six characters are allowed, if there are more than six characters in the check number, the clerk should enter the last six characters. The check number, if present, will be displayed on the receipt and the Transaction Reconciliation Report.

County Fixes and Activity Changes

Primary Event Selection	Secondary Event Selection	Activity Description	Status
<u>Customer</u> Registration Only Title/Registration	Internet Renewal and Renewal Title Application	Issue: The user had to select " Change Registration " to have RTS adjust the plate type from TRUCK to PASSENGER-TRUCK in registration or title events due to the change in using one uniform plate type for both truck and passenger vehicles.	Resolution: RTS will now automatically convert plate type from TRUCK (TKP) to PASSENGER-TRUCK (PSP) in the following scenarios: Event is renewal or title. Existing plate type is TRUCK. Existing plate age is 7 or more.
<u>Customer</u> Title/Registration	Title Application	Issue: Delinquent transfer penalty fees were manually calculated and collected in additional collections when transferring ownership from an Exempt owner to a Non-Exempt owner.	Resolution: RTS will now calculate the Delinquent transfer penalty fees. Fees for these transfers will no longer be manually calculated and collected in additional collections.
<u>Customer</u> Miscellaneous Registration	Timed Permit and Tow Truck	Issue: Duplicated hot keys in the Misc Registration event for Time Permit and Tow Truck.	Resolution: The hot key for Timed Permit is " Ctrl T " and the hot key for Tow Truck is " Ctrl O ".
<u>Reports</u>	Reprint Reports	Issue: The buttons on the report preview screen appear partially covered by the task bar.	Resolution: The dialog box has been moved to allow full display of the buttons.

Internet Vehicle Registration System (IVTRS)

Overview

IVTRS has always allowed a five-business day late grace period for Internet renewals. With this release, IVTRS will allow for registration renewal online 90 days before the expiration date, or up to six months after the expiration date, if the motorist has not received a citation for expired registration. The expiration month will not change, and the customer will be charged the full 12-month registration fee.

Registration Renewal: Eligibility Requirements for TRAVIS County [Contact your county tax office](#)

To renew your vehicle registration for this county, you must meet the following requirements:

1. Your vehicle registration may be renewed 90 days before the expiration date, or up to six months after the expiration date, if you have not received a citation for expired registration. Your expiration month will not change.
2. As the vehicle owner, you must be a resident of **TRAVIS County**.
3. You must have an active e-mail account.
4. You must carry at least the minimum amount of liability insurance required by Texas law. As part of the online registration renewal process, the [TexasSure Vehicle Insurance Verification Program](#) will automatically check to verify that you have the proper insurance. You must enter your insurance information when TexasSure cannot verify.
5. You must have a valid credit card. VISA, MasterCard, American Express or Discover cards are acceptable for online registration renewal. If you renew online, the total price includes non-refundable funds that support the ongoing operations and enhancements of Texas.gov. There is also a \$1 "mail-in fee" that covers your county's cost to process and mail your sticker and/or license plates.
6. The total gross weight of your vehicle is 54,999 pounds or less.
7. You may renew your vehicle registration without having received the renewal notice mailed to you each year.
(Continue on and you can sign up for an eReminder — a friendly e-mail from us that your vehicle registration sticker is coming due.)

I declare under penalty of perjury that I am eligible to renew my vehicle registration online. I understand that perjury can result in a fine not to exceed \$4,000 and/or confinement in jail not to exceed 1 year.

The online registrant will select "**I Agree**" or "**I Disagree**" with the Registration Renewal Eligibility Requirements.

Your Vehicle Registration has Expired. Have you received a citation for expired registration on the vehicle you want to register?

If registration is expired, click "**Yes**" or "**No**" to state if a citation was issued for expired registration.

Your Vehicle Registration cannot be renewed online. Please contact your local county tax assessors-collector's office for assistance.

If the customer received a citation for expired registration and selected "**Yes**", they would receive a message informing them to contact their local county tax assessor-collector.

If the customer did not receive a citation, they will continue processing their registration.

Reminder

If there was a power outage or a workstation powered off, you may need to reset your printer. Check to see if your “DEFAULT” printer is set at “HP LaserJet P3010 Series UPD PCL 6”.
