

ASE Safety Inspection for Assembled Vehicles

An **ASSEMBLED VEHICLE** is a vehicle assembled from the three basic component parts (motor, frame, and body), and is:

- built (assembled) from new or used materials and parts by someone not regulated as a motor vehicle manufacturer (usually an individual or by a shop);
- altered or modified to the extent that it no longer reflects the original manufacturer's configuration; or
- assembled from a kit even if a Manufacturer's Certificate of Origin or Manufacturer's Statement of Origin is provided.

NOTE: The assembling or merging of two or more vehicles of different vehicle classes that were never engineered and manufactured to be combined with one another are NOT eligible to be titled in Texas. For example, a passenger vehicle combined with a motorcycle is NOT eligible for a Texas Title.

If the vehicle does not contain an original manufacturer's assigned Vehicle Identification Number (VIN), an assigned number must be obtained from a Texas Department of Motor Vehicles Regional Service Center and must be die-stamped on the vehicle.

The applicant information below must match the owner information to be supplied on the *Application for Texas Title, Form 130-U*.

Applicant Information - Type or print legibly using legal name as shown on government photo ID				
First Name or Business Name		Middle Name	Last Name	Suffix (if any)
Mailing Address		City	State	Zip
E-mail			Phone	

An assembled vehicle will display the year in which it was assembled and the make as "Assembled" unless the vehicle was constructed with a manufactured prefabricated body (the year and make may be as shown on the Manufacturer's Certificate of Origin accompanied by a REPLICA brand).

Vehicle Description			
Year	Make	Model	Body Style
Vehicle Identification Number		*Replica Year (if any)	*Replica Make (if any)

* If the assembled vehicle was constructed in a manner to resemble a vehicle from a prior model year, the vehicle record and title can be branded with "REPLICA" indicating the Year and Make the vehicle resembles. Leave blank if you do not want the vehicle record and title branded.

State law makes falsifying information on this application a third-degree felony.		
My vehicle meets the eligibility requirements listed on this form, and I am providing proof of the ASE Certified <u>Master</u> Technician's vehicle inspection.		
_____ Applicant's Printed Name	_____ Signature	_____ Date

After the inspection on page 2 is completed by the ASE Certified Master Technician, submit this form with your completed *Application for Texas Title, Form 130-U*, and all other required documentation to your local County Tax Assessor-Collector's Office.

An ASE Certified Master Technician can be found at www.ASE.com.

For assistance in completing this form, contact your local County Tax Assessor-Collector's office.

ASE Safety Inspection for Assembled Vehicles

Safety Inspection

An assembled vehicle must be certified as being structurally stable and safe in order to operate on public highways by an Automotive Service Excellence Certified Master Automobile Technician (ASE Certified Master Technician). Master status is established by passing the Automobile Test Series (A1 through A8). The ASE Certified Master Technician must inspect the vehicle and sign the statement at the bottom of this page. The automotive systems and parts listed below must be inspected, as applicable, based on the year the vehicle was assembled. For example, a vehicle assembled in 2014 must comply with all state and federal motor vehicle safety laws in effect in 2014.

General Inspection Requirements - Read carefully

- A current ASE Certified Master Technician must perform the inspection. Master status is established by passing the Automobile Test Series (A1 through A8).
- A copy of the certifications and expiration dates, available through the inspector's myASE account, must be submitted with this inspection. The inspection is not valid if any of the series are missing or expired at the time of inspection. **This form is not valid without the certifications printout.**
- Inspection fee is set by each ASE Certified Master Technician.
- The ASE Certified Master Technician must initial each box, and provide comments as applicable, to certify the presence and/or safety of each item.
- This inspection does not replace or eliminate the mandatory Texas Department of Public Safety vehicle safety and emissions (if applicable) inspections.

An assembled vehicle must be constructed with all required parts in compliance with state and federal motor vehicle safety laws in effect at the time the vehicle was assembled with the exceptions indicated below for tail and stop lamps on replica vehicles.

Vehicle Inspection - Applicable item listed below must be inspected

<input type="checkbox"/> Vehicle Identification (VIN), Serial, or Assigned TEX Number _____	<input type="checkbox"/> Mirror _____

ASE Master Technician Statement - State law makes falsifying information a third-degree felony

I certify that I am an ASE Certified Master Automobile Technician with current, valid credentials at the time of inspection. I have inspected the vehicle listed, and certify it is **structurally stable and meets the necessary conditions to be operated safely** on the public highway. The information provided is correct to the best of my knowledge at the time of inspection.
